

Bobcat™ 265

Issued Feb. 2025 • Index No. ED/4.46

Gas or LP Engine-Driven
Welder

Quick Specs

Industrial Applications

Maintenance
Repair
Work trucks
Farm/ranch
Fabrication
Structural steel work

Processes

Stick (SMAW)
MIG (GMAW)*
Flux-cored (FCAW)*
DC TIG (GTAW)
Air carbon arc (CAC-A)
cutting and gouging (3/16 in. carbons)
Air plasma cutting and gouging
with optional Spectrum® models

*With wire feeder.

Output Range

DC stick/TIG 20–265 A
MIG/flux-cored 14–30 V

Auxiliary Power Output Rated at 104°F (40°C)

11,000 watts peak, 9,500 watts continuous

Battery Charge/Crank Assist (option)

Battery charge 12/24 V, 150 A
Crank assist 12/24 V, 300 A

Reliable, easy to use and more capable engine-driven welders great for stick and flux-cored welding. Designed for maintenance/repair operations, construction, and auxiliary power use.

The most popular engine-driven welder in the industry, the Bobcat is:

- Quiet to operate
- Small and light
- Easy to maintain

Easy to use

Digital interface speeds machine setup and makes it less complicated.

Separate weld and auxiliary power

Full auxiliary power at any setting.

Engine options

Kohler or Vanguard.

Bobcat 265 with battery charge/crank assist model shown.

Remote start/stop

Easily turn your Bobcat machine on and off remotely, so it only runs when you need it. See page 2.

Exceptional arc performance

Easy arc starts and less spatter.

Easier mobility and uses less truck space and payload

Over 100 pounds lighter and 13 percent smaller than previous model.

Easy maintenance

With its intuitive design, the daily maintenance of our Bobcat engine-driven welder is fast and easy.

ArcReach®

Parameter control at the wire feeder or pendant without needing a control cord. See page 2.

Engine-driven welder is warrantied for three years, parts and labor.
Engine is warrantied separately by the engine manufacturer.

The Bobcat™ Advantage

Remote start/stop (Kohler gas model only)

Take control and eliminate engine noise. Easily turn your Bobcat machine on and off remotely so it only runs when you need it. Get more out of each tank, extend time between maintenance and work without the hassle of walking back to your machine.

The remote start/stop on the Bobcat 265 engine-driven welder is installed and backed by Miller — so it's just as easy to use and dependable as your Bobcat machine.

SIMPLE

One button: press to start the engine-driven welder; press again to turn it off.

DURABLE

Tough and water-resistant, with a three-year warranty.

TWO-WAY COMMUNICATION

After start or stop command is received by the engine-driven welder the fob lights up and beeps.

EASILY ORDER ADDITIONAL FOBs

Order stock number 286385.

Auto-Set™ technology

Auto-Set offers predefined weld settings to increase ease of use and ensure that the job is done right for operators of all skill levels.

Data visibility

Predictive maintenance information helps you plan necessary service time. Productivity screens make it easier for you to monitor machine use.

Direct spool gun connection

Make it easy to weld aluminum. Expand the types of jobs you can take on. Adapters are no longer required with the integrated 10-pin connection. Optimized for Spoolmate™ and Spoolmatic® spool guns.

Designed for reliability

From Appleton, Wisconsin USA, our engine-driven welders are the most rugged, durable and long-lasting in the industry. We manufacture them to exceed requirements for extreme working conditions and they are hard-working from the core with:

- Copper windings and robust internal components for a quality-built machine
- Lugged — not soldered — heavy internal leads for better field durability
- Superior cooling technology for maximum performance and engine life
- Protective doors to cover the weld studs and receptacles as required by OSHA and CSA for jobsite safety
- Lift hook integrated into the center frame, which bolts to the machine's base for greater durability

Small, light design

Bobcat engine-driven welders take up less space on trucks and trailers — leaving more room on your truck for other equipment and tools. Plus, they're easier to move around jobsites — even with weld cables attached.

Long runtimes

Large 11-gallon fuel capacity means many hours of run time before refueling. Improved fuel system design reduces a no-start condition if overfilled.

ArcReach® technology (option)

Parameter control at the wire feeder or pendant without needing a control cord.

An ArcReach system allows you to change

weld settings from your ArcReach feeder or stick/TIG remote, saving a trip to the power supply. ArcReach technology uses the existing weld cable to communicate welding control information between the feeder or stick/TIG remote and the power source. This technology eliminates the need for control cords, and their associated problems and costs.

Note: ArcReach is not available on the Battery Charge/Crank Assist model.

Battery charge/crank assist (option)

Reduce downtime with battery charge/crank assist capability.

Designed and recommended for mechanics or anyone else responsible for a fleet of trucks or equipment. By using your Bobcat to charge dead batteries or jump a stubborn engine, you'll keep your crew working and the fleet up and running.

Note: Battery charge/jump cables (300422) must be ordered separately.

The Bobcat™ Advantage

Easy maintenance

With its intuitive design, the daily maintenance of our Bobcat engine-driven welders is fast and easy. Front panel maintenance displays help you know when your equipment needs to be serviced. And servicing is simple because of:

- Oil checks that can be performed easily through the top of the machine by the access door
- Toolless panels that allow for quick access
- Single-side fuel fill and oil drain/filter

Reversed air flow for optimized cooling

Exclusive engine and interior componentry design operates cooler and more efficiently. The engine is rotated towards the front to create more efficient airflow. More efficient airflow and exclusive engine location are significant contributors to reduced sound level and size reduction. Hot air recirculation is eliminated when machine is mounted in tight spots, and internal parts are kept cool for optimal performance.

Accu-Rated™ — not inflated auxiliary power

Our Accu-Rated 11,000 watts of *usable* peak power is delivered for a minimum of 30 seconds. Accu-Rated means peak power is usable for maximum auxiliary power loads such as plasma cutting, Millermatic® MIG welders and motor starting. Accu-Rated peak power beats the competition's very short-duration peak or surge power. Use your peak power, it's more than a number.

Smooth power — not spike power

Revolutionary ten-degree skewed-rotor design optimizes auxiliary power performance for smoother power — not spiked power found with other brands. Better power — better performance.

Waveform Comparison

Auxiliary Power Curve

Tools and motors are designed to operate within 10 percent of 120/240 V. The auxiliary power of the Bobcat provides strong power while keeping the voltage within 10 percent of 120/240 V. **This increases tool/motor performance and life.**

Auxiliary power quality

Bobcat 265 engine-driven welders produce auxiliary power with four percent total harmonic distortion.

Typical equipment power usage

Bobcat engine-driven welders will easily start and run the following equipment:

| Equipment | Starting Watts | Running Watts |
|--|----------------|---------------|
| Barn Cleaner (5 hp) | 11,600 | 3,000 |
| Silo Unloader (5 hp) | 12,200 | 4,300 |
| Portable Conveyor (1/2 hp) | 3,400 | 1,000 |
| Milker (5 hp) | 10,500 | 2,800 |
| Hand Drill (1/2 inch) | 600 | 600 |
| Circular Saw (8-1/4 inch) | 1,400 | 1,400 |
| Air Compressor (1-1/2 hp) | 8,200 | 2,200 |
| Flood Lights (Vapor) | 1,250 | 1,000 |
| Spectrum® 625 X-TREME™ (30 A, 230 V, 1/2-inch cut) | 6,900 | 6,900 |

To size a unit that has enough power output in watts, add the watts for the items you want to simultaneously run. Tools with induction motors may require three to seven times the listed wattage when starting. **All data listed is approximate — check your tool for specific wattage requirements.**

Specifications (Subject to change without notice.)

| Welding Mode | Process | Amp/Volt Ranges | Rated Weld Output at 104°F (40°C)* | Single-Phase Auxiliary Power | Sound Levels | Dimensions | Net Weight** |
|--------------|-----------|-----------------|------------------------------------|--|-----------------|---|---------------------|
| CC/DC | Stick/TIG | 20–265 A | 265 A at 27 V, 100% duty cycle | Peak: 11,000 watts Continuous: 9,500 watts 120/240 V, 88/44 A, 60 Hz | 73.1 dB/72.5 dB | H: 26.5 in. (673 mm) H: 31.2 in. (792 mm) (to top of exhaust) W: 20.13 in. (511 mm) D: 37.06 in. (941 mm) | 382 lb. (173 kg) |
| CV/DC | MIG/FCAW | 14–30 V | 265 A at 27 V, 100% duty cycle | | | | |

Note: Derate outputs up to five percent when using LP fuel. *Rated at sea level. **Net weight without fuel.

Certified by Canadian Standards Association to both the Canadian and U.S. Standards.

Engine Specifications (Engines warrantied separately by the engine manufacturer.)

| Engine Brand and Warranty | Horsepower (HP) | Type | Weld Speed | Idle Speed | Fuel Capacity | Oil Capacity | Standard Shutdowns |
|----------------------------------|---|--|--------------|--------------|---------------------|----------------------------|---------------------|
| Kohler CH730, 3-year warranty | Gas: 23.5 hp at 3,600 rpm LP: 21 hp at 3,600 rpm | Twin-cylinder, four-cycle overhead valve, industrial air-cooled, gasoline* or LP** | 3,600 rpm | 2,400 rpm | 11 gal. (41.6 L) | 1.7–1.9 qt. (1.6–1.8 L) | Low oil pressure |
| Vanguard, 3-year warranty | 23 hp at 3,600 rpm | Twin-cylinder, four-cycle overhead valve, industrial air-cooled, gasoline* | 3,600 rpm | 2,400 rpm | 11 gal. (41.6 L) | 1.5 qt. (1.4 L) | Low oil pressure |

*Fuel stabilizer is recommended for gas engines that are used infrequently. **Hose and LP Tank Mounting Assembly and setup are required.

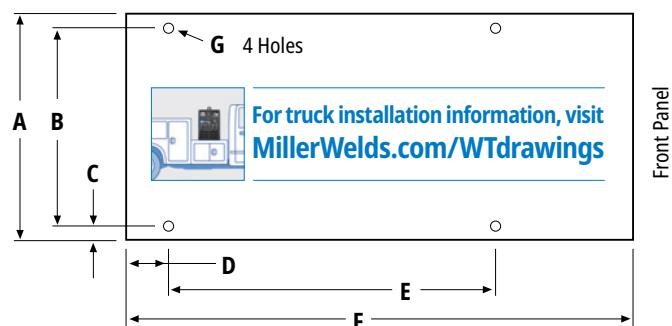

Performance Data

Fuel Consumption Data

- 11-gallon fuel capacity.
- On a typical job using 1/8-inch 7018 electrodes (125 A, 20% duty cycle) expect about 11.7 hours (gas) of operation.
- Under a continuous load of 4,000 watts of auxiliary power, the Bobcat would run for about 10 hours (gas) of operation.

Mounting Specifications

- A. 20 in. (508 mm)
- B. 16.5 in. (419 mm)
- C. 1.75 in. (44.5 mm)
- D. 3.18 in. (81 mm)
- E. 22.3 in. (566 mm)
- F. 37 in. (940 mm)
- G. .406 in. (10.3 mm) diameter

Note: See MillerWelds.com or the Full-line Catalog to compare to Trailblazer® models.

Function and Benefit Guide

- Digital display** provides weld process and parameters, fuel level, maintenance and machine use information.
- USB port** allows software updates from a USB drive. A summary file of recorded data from the unit will be saved to a USB drive that is inserted.
- Optional battery charge/crank assist receptacle.**
- Pushbutton main control knob** used for adjusting amperage/voltage and accessing the service menu.
- Standard 10-pin receptacle** for simple connection of spool guns. See page 7.
- Pushbuttons** used for selection of weld process, menu and other machine features.
- LP model** — Engine choke control is used for easy engine starting.
- Engine control switch** is used to start the engine and then select between auto idle and high speed lock positions.
- Auto-Set™ button** provides process-specific pre-defined parameters.
- 120/240 V receptacle with circuit breaker.**
(For matching plug, order 119172.)
- 240 V receptacle with circuit breaker.**
- 120 V GFCI receptacles with circuit breaker.**

Genuine Miller® Options *Available as factory option. See ordering information on back page.

LP Gas*

Liquid withdrawal LP system with vaporizer and regulator. Does not include tanks, brackets or hose from tank to regulator.

Note: Requires Hose and LP Tank Mounting Assembly (301710).

Electric Fuel Pump* 301741 Field

Recommended for gas engine operations at altitudes above 5,000 feet. Improves engine starting and high-output performance.

Spark Arrestor 300924 Field

Mandatory when operating on California grasslands, brush or forest-covered land, and all national forests. For other areas, check your state and local laws.

Female Receptacle

Full KVA Adapter Cord 300517 Field
NEMA 14-50P to NEMA 6-50R. Adapts engine drive 120/240 V plug to common Millermatic® and Spectrum® 240 V plug.

Full KVA Plug 119172 Field
120/240 V, 50 A plug (NEMA 14-50P) to fit full KVA receptacle.

Engine Tune-Up Kits

284083 Field. Kohler CH730 (gas)

252838 Field. Kohler CH730 (LP)

293399 Field. Vanguard

Kits include air, fuel and oil filters, and two spark plugs.

Genuine Miller® Accessories

Never Flat™ Tires Available on Bobcat and Trailblazer running gear.

- Reduce costly jobsite downtime

- Maintain constant tire pressure and will not develop flats
- Protect against punctures
- Preserve maneuverability, even when weighed down with heavy welding cable

Off-Road Running Gear with Never Flat Tires 301706

Includes four heavy-duty 15-inch tires and a rugged handle to provide maximum maneuverability.

Off-Road Running Gear with Protective Cage and Never Flat Tires 301707

Running gear allows easy movement around jobsite

and rugged cage with cable holders protects your investment.

Multi-Terrain Running Gear with Never Flat Tires 301708

Includes two heavy-duty 15-inch tires, two 8-inch rubber swivel casters and a

heavy-duty handle. Recommended for all surfaces and applications, and is easy to move around the jobsite.

Protective Cage with Cable Holders 301709

Rugged cage with cable holders protects your investment. Can be

used with running gear, gas cylinder mounting assembly, or trailer.

Gas Cylinder Mounting Assembly 301711 Gas only

Designed for use with multi-terrain running gear, protective cage,

or by itself. Includes base tray with bottle bracket, vertical support rack and safety chain.

Note: Not for use with LP tank mounting assembly. Not recommended for use with protective cover.

Hose and LP Tank Mounting Assembly 301710 LP only

Designed for use with multi-terrain running gear, protective cage, or by itself. Includes bracket and clamp to

mount 33- and 43-pound tanks horizontally, and hose with fittings to converter.

Note: Not for use with gas cylinder mounting assembly. Not recommended for use with protective cover.

25-foot Battery Charge/Jump Cables with Plug 300422

Protective Covers 301712

For use **without** protective cage or running gear (shown)

301713

For use **with** protective cage and/or running gear

Heavy-duty, water- and mildew-resistant covers protect and maintain the finish of the welder.

Sun Shade 301714

Compatible with all Bobcat™ 265 and Trailblazer® 330 engine-driven welders.

Screen Protector Kit 301742

Compatible with all Bobcat™ 265 and Trailblazer® 330 engine-driven welders.

Remote Start/Stop Fob 286385

For use with Bobcat 265 engine-driven welders equipped with remote start/stop. Fob can be easily paired with compatible machines.

MIG/Flux-cored Welding

Millermatic® 142 907838

See literature DC/12.41

Millermatic® 211 907614

See literature DC/12.58

The Millermatic line of MIG welders are complete arc welding power source, wire feeder and gun packages designed for portability and ease of use.

Note: The Millermatic machines can be operated utilizing auxiliary power.

ArcReach® SuitCase® 8

951726001 With Bernard® BTB Gun 300 A

951727 With Bernard® S-Gun™

951728 With Bernard® Dura-Flux™ gun

ArcReach® SuitCase® 12

951729001 With Bernard® BTB Gun 300 A

951730 With Bernard® S-Gun™

951731 With Bernard® Dura-Flux™ gun

Portable feeder designed to run off of arc voltage. See literature M/6.55.

Spoolmatic®

30A Spool Gun 130831

Rated at 200 amps, 100 percent duty cycle with

30-foot (9 m) cable. See literature M/1.73.

Spoolmate™

200 Spool Gun 300497

Rated at 160 amps, 60 percent duty cycle with

20-foot (6 m) cable. See literature M/1.47.

Stick (SMAW) Welding

Weld Leads

2/0 Stick Cable Set, 50 ft. (15 m) 173851

Consists of 50-foot (15 m) 2/0 electrode cable with holder, and 50-foot (15 m) work cable with clamp. 350 A, 100% duty cycle.

2/0 Stick Cable Set, 100/50 ft. (30.5/15 m) 043952

Consists of 100-foot (30.5 m) 2/0 electrode cable with holder, and 50-foot (15 m) work cable with clamp. 300 A, 100% duty cycle.

TIG (GTAW) Welding

Dynasty® 210 Series

For portable AC/DC TIG. See literature AD/4.81.

Multiprocess Welding

Multimatic® 215 907693

Portable, all-in-one multiprocess package weighs only 38 pounds (17.2 kg), and features excellent arc characteristics. Exclusive multi-voltage plug (MVP™) provides flexibility to plug into 120- or 240-volt power. Take it anywhere you need to MIG, TIG or stick weld. See literature DC/12.59.

Remote Solutions

ArcReach® Stick/TIG Remote 301325

When paired with an ArcReach power source, provides remote control of the power source without a control

cord — saving time and money. See literature AY/14.5.

Plasma Cutting

Spectrum 375 X-TREME and 625 X-TREME shown.

Spectrum® 375 X-TREME™ 907529

See literature PC/9.2.

Spectrum® 625 X-TREME™ 907579

See literature PC/9.6.

Spectrum® 875 907583

See literature PC/9.8.

The Spectrum 375 X-TREME and 625 X-TREME come complete with protective X-CASE™ (not shown).

Trailers and Hitches

HWY-Mid Frame Trailer 301438

1,424-pound (646 kg) capacity highway trailer with welded steel tubing frame, heavy-duty axle with roller bearing hubs and leaf-spring suspension. Includes jack stand, fenders, lights, and dual hitch with 2-inch (50 mm) ball hitch and 3-inch (76 mm) lunette eye.

Note: Trailer is shipped unassembled.

Cable Tree 043826

Provides an area to conveniently wrap weld cables and extension cords.

2-In-1 Document/ Fire Extinguisher Holder 301236

Stores documents and holds a five-pound fire extinguisher.

Note: Holder shown mounted on trailer. Fire extinguisher not included.
