WELDING SAFETY

Designed to perform in a range of welding conditions, Jackson Safety* Brand Helmets are available in a variety of materials including vulcanized fiber. Choose from a selection of filters — from passive to digital ADF platforms and numerous graphic designs to reflect personal style.

Why Choose Kimberly-Clark Professional* SAFETY AND INDUSTRIAL SOLUTIONS?

Because we offer protection and comfort without compromise – to safeguard workers, their environments and work processes. Our full range of personal protection products are designed to meet the needs of virtually any facility, while enhancing efficiency and performance. Our wiping solutions are consistent and reliable, an ideal replacement for paper towels, rags and shop towels. We offer something that our competitors do not: A way to divert used gloves and apparel from the landfill. Turn to our trusted, quality brands to enhance safety, compliance and sustainability in your workplace.

JACKSON*
SAFETY Brand

WELDING HELMETS

*Passive helmets offer great protection.
Auto-Darkening Filter helmets offer
protection and productivity.*

PASSIVE VS. AUTO-DARKENING FILTER HELMETS

Both passive and Auto-Darkening Filter (ADF) welding helmets provide excellent eye protection. Research shows that ADF helmets also offer impressive productivity gains, as well as greater user comfort.

According to a study¹ comparing the productivity of a passive and an ADF unit:

- 3% of a welder's day is spent lifting and nodding his/her helmet
- An ADF eliminates the need to "lift and nod" the helmet
- Use of an ADF will put \$500 per year, per welder, back in the company's pocket
- Use of an ADF can recapture 12 minutes per day in productivity per welder

Our **Auto-Darkening Filter Productivity & Profitability Calculator** can show you just how much money you can save – and how much productivity you can gain – using our ADF welding helmets.

ADDED BENEFITS OF AN ADF

- **Increased accuracy** because the welder can always see what he's doing, and start in exactly the right spot
- **Increased comfort** by eliminating the repetitive "lifting and nodding" that can cause neck strain
- **Increased protection** from injuries caused by welding, chipping or grinding in the proximate area
- **Increased peace of mind** because even if the ADF should not become active during an arc, it still protects eyes from serious damage
- **Increased productivity** by eliminating the time it takes to lift and nod the helmet before and after each weld

¹ Productivity Claim for Welders Using an Auto-Darkening Filter (ADF) Helmet Vs a Passive Helmet (Research Summary). Date: 7/29/2010. Authors: Cerita D. Bethea, Rick Zepp, Sandy Erreger, Martha Tate, Audra Wright

Jackson Safety® Auto-Darkening Filter (ADF) Warning

- Provides limited eye protection; Additional protective devices are required for full eye coverage and protection
- Should not be worn to protect from other hazards including, but not limited to, airborne dusts or mists, liquid splashes, impact hazards and sports activities

The selection and use of welding personal protective equipment must be based on a hazard assessment of the wearer's work environment conducted by the wearer, or for an industrial environment, an appropriately trained individual for your employer or organization in accordance with OSHA regulations 29 CFR 1910.133 and ANSI Standard No. Z87.1. Make sure the ADF is installed properly into the helmet shell and is clean. If the ADF is scratched or damaged, do not use it and replace it with a new one. Do not use the ADF without the Jackson Safety® Brand Internal and External Safety Plates. To clean, wipe only with a soft cloth. Do not immerse ADF in liquids.

• *Registration needed to be eligible for 5-year warranty*

• *5-year warranty only for ADFs with Balder® Technology*

WELDING HELMET SELECTION GUIDE

Follow the easy-to-use selection guide below to find the helmet and filter with features that best suit your needs, experience and budget.

Jackson Safety* Helmet Portfolio

Passive • Traditional passives • Specialty applications	ADF — Digital • Entry-level ADFs • Professionals who need value	ADF • High-performance ADFs • Professionals who need results and performance	ADF — Digital with Balder* Technology • Best-quality ADFs • High optical clarity • Premium solutions

• Passives • Specialty segments 	• Insight* • SmarTIGer*  	• NexGen* • Balder* BH3*  	• TrueSight* II  

SEE THE DIFFERENCE WITH BALDER* TECHNOLOGY

Balder* Technology has achieved the highest rating for optical quality and the best classification for “angular dependence.” The 1 / 1 / 1 / 1 rating is for Optical Quality, Light Scattering, Homogeneity, and Angular Dependence. That means it gives the welder the flexibility to see clearly at many different angles. With Jackson Safety* ADF Welding Helmets with Balder* Technology you get a clear view from various angles which can reduce eye fatigue and the need to move, adjust and refocus, and superior optical quality that allows you to do your best work.

WELDING HELMET STYLES

Jackson Safety Welding Helmets come in a variety of styles and types of helmets to suit your welding needs. The three different types of shells highlight the varying levels of performance within the Jackson Safety* Welding Helmet product line.*

HSL 100

- Narrow shell design is perfect for work in tight spaces
- Extended front increases throat protection from sparks, slag and other physical hazards

Halo X (HLX)

- Ultra lightweight shell – only weighs 6 ounces
- Lightweight shell helps reduce neck tension
- Hydraflex* Shell provides the ultimate in flexibility and durability

BH3*

- Curved front cover plate offers reduced heat buildup, reflections and fogging than the HSL-100
- Aerodynamic shell designed for better fume deflection than the HSL-100
- Smooth, rounded perimeter for increased comfort
- Quick and easy replacement of safety plates

Welding helmet designs and colors are an extension of your personality. Jackson Safety* Welding Helmets come in solid colors as well as several graphic hoods. Select the helmet design that's right for you.

Jackson Safety* HARD HAT INTERCHANGE SYSTEM

The All-In-One Safety Solution. Injuries can happen in a split second — even during the time it takes to remove a hard hat when you need a face shield or welding helmet.

Now it's easy to stay protected at all times with the Jackson Safety* Hard Hat Interchange System from Kimberly-Clark Professional*. It lets you easily add, remove or switch between your welding helmet or face shield — all without removing your hard hat.

POWERED AIR PURIFYING RESPIRATOR (PAPR)

Airmax Elite* Powered Air Purifying Respirator (PAPR)

Code No.	Description	Product Features
40839	Airmax Elite* PAPR with BH3* Air Headtop	- BH3* Air Welding Helmet features variable auto-darkening filter with Balder* Technology. This technology provides superior optical viewing clarity from any angle along with one of the largest ADF viewing areas of 3.78" x 2.70" - Variable ADF with grind mode. Adjustable shades 6-8 (grind) and 9-13 via external knob - Flame-retardant face seal around welding helmet protects against sparks - Lightweight blower with advanced control system to maintain constant airflow rate throughout the charge of the battery - Audible and vibrating alarms signal welder when need for new filter or battery change. Blower unit display also provides visual status of the battery charge and level of filter clogging - Three-layer filter provides NIOSH-approved HE filtration from particulate contaminants. The pre-filter extends the operating life of the main filter by capturing coarse particles. The spark arrester helps protect the main filter from damage by sparks and welding spatter - Breathing Hose with flame-retardant cover is protected against sparks and flexes with the welder during use - Rechargeable lithium ion battery is the newest battery technology that provides 8 hours of power "Smart" Battery Charger indicates when charging and when complete without overcharging the battery - Adjustable belt accommodates personal sizing from 25" to 62"
REPLACEMENT PARTS

REPLACEMENT HEADGEAR

370 Headgear

Code	Old Code	Description	Units/Case
20696	3014866	370 Headgear	1
32187		Replacement Sweatband	2 packs of 24

370 Replacement Headgear for:

HSL-1	Nitro*	NexGen*	BH3*
HSL-2			TrueSight* II
HSL-100	SmärTIGer*		

- Product Features**
- Three-position slider adjusts distance of the lens from your eyes for precise vision
 - Removable Comfort Cradle is a pivoting headpad that conforms to any head for the highest degree of comfort
 - Oversized ratchet with soft rubber grip allows for easy adjustment when wearing gloves
 - Crown Strap Adjustment allows the headgear to be raised or lowered for maximum comfort and performance
 - Sweatband helps absorb perspiration and prevents sweat from interfering with vision
 - Vertical lock-in eliminates helmet creeping
 - Lock-nut feature keeps the components together even when bracket is loosened

117A Headgear

Code	Old Code	Description	Units/Case
14556	3000621	117A Headgear	6
32187		Replacement Sweatband	2 packs of 24

117A Replacement Headgear for:

951P	860P
990P	430P
930P	490P
	411P
	451P

- Product Features**
- Teeth are automatically disengaged during adjustment
 - Air-cushioned cloth sweatband is washable and durable

170 Headgear

Code	Old Code	Description	Units/Case
14956	3002454	170 Headgear	12
14958	3002459	Replacement Sweatband	12

170 Replacement Headgear for:

H100-A

- Product Features**
- 170 features 45 head size adjustments and 5 crown adjustments
 - Lower ratchet strap for added comfort and strength
 - Ratchet eliminates "backing off" with push and turn design
 - For use with H-Series fiberglass helmets

Element* Replacement Headgear

Code	Old Code	Description	Units/Case
23442	3023376	Element* Replacement Headgear	6

Element* Replacement Headgear for:

Element* Shade 10	Element* Variable
-------------------	-------------------

- Product Features**
- Teeth are automatically disengaged during adjustment

FILTERS

Kimberly-Clark Professional* has a large selection of top-quality polycarbonate lenses for welding helmets and cutting goggles.

To prevent surface damage to welding filter plates and auto-darkening lenses, clear safety plates should always be inserted in front for protection. Be sure to use the correct filter shade for the job. Refer to the suggested shade guide below.

BH3*	TrueSight* II	NexGen*	SmarTIGer*	Nitro* 3-Sensor	Element* Variable	Solera	Element* Shade 10
Kit includes: 5 Front Clear Safety Plates, 2 Inner Clear Safety Plates, 1 Light Seal Gasket

WILSON* WELDING CURTAINS AND HIGH-TEMPERATURE FABRICS

Kimberly-Clark Professional has focused our Wilson* product line to offer the best assortment of curtains, blankets and accessories to meet your needs.*

All Wilson* products are electronically welded or sewn for superior quality and long-lasting protection.

The Wilson* Brand has made significant contributions to advancing industrial barrier protection since the 1950s. It's the brand recognized for originating the first transparent form of barrier welding protection, and we're pleased to feature Wilson* in our trusted line of safety products.

WELDING CURTAINS

Wilson* Welding Curtains and Screens are designed to address the challenges of employee safety and workplace productivity relative to a wide range of high-heat applications. Actual finished size on standard orders may vary 3" in height and width.

All Wilson* Welding Curtains meet or exceed California State Fire Marshall (CFM) requirements for flame resistance. **These fabrics are not intended for use in lieu of visors, goggles, eyewear or welding helmets. Clear/colorless See-Thru Curtains available in 14-Mil are not intended for welding or ultraviolet filtration.**

- Transparent curtains feature secure side hemming done by an electronic welding process for added strength and durability
- Plastic grommets are placed 8" apart on one width side and 16" apart on both height sides providing improved wear and less possibility of separation
- Standard sizes and roll goods are available

SEE-THRU WELDING CURTAINS

Per OSHA recommendations, allow 1' clearance at floor for all framing configurations.

¹ Temperatures and applications are intended as a guideline only and not a guarantee of performance. Kimberly-Clark Professional* recommends the use of welding blankets in multiple layers to attain proper molten-metal and radiant-heat protection. It is the user's responsibility to monitor the activity and use of blankets/high-heat roll goods at all times.

HIGH-TEMPERATURE FABRICS

Wilson* High-Temperature Fabrics protect equipment and employees working near hazardous operations such as flame cutting, welding, grinding and spraying. Available as blankets, hanging curtains or roll goods, Wilson* Fabrics are designed to withstand temperatures ranging from 600°F–2000°F.² All high-temperature fabrics meet minimum specification standards for flame resistance (NFPA-701). Welding blankets are hemmed on all four sides using durable, heat-resistant thread and feature grommets in each corner and on 36" centers.

HIGH-HEAT MATERIAL RECOMMENDATIONS

Temperature ratings are based on recommended uses and information provided herein is intended as a guideline only. Kimberly-Clark Professional* recommends the use of welding blankets in multiple layers to attain proper molten-metal and radiant-heat protection. It is the user's responsibility to monitor the activity and use of all blankets and roll goods at all times.

CHOOSING THE RIGHT HIGH-HEAT MATERIAL

APPLICATIONS	MATERIALS			
	15-oz Acrylic Coated (3001)	16-oz Polyurethane Coated (2000TP)	24-oz Vermiculite Coated (906)	32-oz Silicone Coated (3000R)
Welding Vertical – general-purpose welding with light sparks & spatter	●	●	●	●
Grinding & Flame Cutting	●	●	●	●
Furnace Blanket				
Slag Protection	●	●	●	●
Welding Horizontal – use as blanket				●

All Wilson Blankets listed are FM-Approved

LIGHT-USE PROTECTION

Wilson* Weld-O-Glass 15-oz Fiberglass Blanket, Acrylic Coated

Code	Old Code	Description
37192	1010100-3001	10' x 10' 15-oz Fiberglass Blanket, Acrylic Coated

Product Features

- **ANSI/ FM-4950** certified for use in vertical applications (1.4.3) with light-moderate exposures resulting from chipping, grinding, heat treating, sand blasting and light horizontal welding; prevents sparks from escaping from a confined area
- Color: Gray

Wilson* Weld-O-Glass 16-oz Fiberglass Blanket, Polyurethane Coated

Code	Old Code	Description
36148	2000TP-38	Roll Goods, 38" x 50 yards
36149	2000TP-60	Roll Goods, 60" x 50 yards

Product Features

- **ANSI/ FM-4950** certified for use in vertical applications (1.4.3) with light-moderate exposures resulting from chipping, grinding, heat treating, sand blasting and light horizontal welding; prevents sparks from escaping from a confined area
- Roll goods sold in 50-yard increments: minimum order is 1 roll or 50 yards
- Color: Red

MEDIUM- TO HEAVY-USE PROTECTION

Wilson* Weld-O-Glass 24-oz Fiberglass Blanket, Vermiculite Coated

Code	Old Code	Description
36217	5525-906	5' x 5' Fiberglass Blanket, Vermiculite Coated
36302	6636-906	6' x 6' Fiberglass Blanket, Vermiculite Coated
36318	6848-906	6' x 8' Fiberglass Blanket, Vermiculite Coated

Product Features

- **ANSI/ FM-4950** certified for use in vertical applications (1.4.3) with light-moderate exposures resulting from chipping, grinding, heat treating, sand blasting and light horizontal welding; prevents sparks from escaping from a confined area
- Color: Black

HEAVY-DUTY PROTECTION

Wilson* Weld-O-Glass 32-oz Fiberglass Blanket, Silicone Coated

Code	Old Code	Description
37592	1010100-3000R	10' x 10' Fiberglass Blanket, Silicone Coated

Product Features

- **ANSI /FM-4950** certified for use in horizontal applications with light-moderate exposures resulting from chipping, grinding, heat treating, sand blasting and light horizontal welding; protects machinery and prevents ignition of combustibles such as wood that are located adjacent to the underside of the blanket.
- Color: Red

ACCESSORIES

Welding Curtain Hooks

Code	Old Code	Description	Quantity
36687	WIL100	Heavy-duty hooks for use with welding curtains. Fit 1-1/2" - 2" outside diameter pipe	10/pack (No pack splits)

Our Guarantee

Your total satisfaction means everything to us. If, for any reason, our products do not meet your expectations, Kimberly-Clark will reimburse you[†] for your initial purchase, via FREE product, for up to \$1,000. For more information on Kimberly-Clark Professional*, visit us online at www.KCProfessional.com.

‡ Guarantee extended to consuming end-user accounts only.

Kimberly-Clark warrants that its products (1) comply with K-C's standard specifications as of the delivery date to K-C's authorized distributors/direct purchasers and are warranted for the following periods from end-user's date of purchase (verified by valid sales receipt) (a) five years for Balder* Technology auto darkening filters; (b) two years for all other auto-darkening filters; and (c) one year for powered air-purifying respirators; (2) comply with all K-C labeling representations; and (3) are manufactured in compliance with all applicable federal, state, and local laws in effect at the time and place of manufacture of the products. THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. K-C is not liable for any kind of special, incidental, or consequential damages. K-C's liability for breach of contract, tort or other cause of action shall not exceed the product purchase price. Purchasers and users are deemed to have accepted the above warranty and limitation of liability, and cannot change the terms by verbal agreement or by any writing not signed by K-C. To the extent required by applicable law, K-C does not limit its liability for death/injury resulting from K-C's negligence.
