

# AngelFire® Women's Welding Gear

## AngelFire® Women's Hybrid™ Welding Jacket

Designed specifically for female welders, the AngelFire® Hybrid Welding Jacket provides the right comfort, the right protection, and the right fit. The combination of durable split cowhide and FR cotton creates a protective garment that is lighter than a traditional leather welding jacket. Unique cowhide "spark panel" provides additional torso heat and spark protection. 29" length.

**JH1515-NB** XS-XL Navy/Black

## AngelFire® Women's FR Cotton Welding Jacket

With a tailored fit designed specifically for women welders, the JF1015-NB Women's Welding Jacket offers flame-resistant protection for light welding applications. 29" length.
