DUO STAND™ HEIGHT ADJUSTABLE 4 LEG PIPE ROLLER

The Duo pipe stand utilises a fine adjustment thread. This allows precise adjustment of the working height and can compensate for uneven surfaces to ensure the pipe is level at all times.

The unique safety locking pins allow the Duo pipe stand to be fixed at various working heights.

Final adjustment and levelling can then be made with the fine adjustment handle.

Simple head changeover

The quick change style heads increase the versatility of the Duo pipe stand. The heads can be changed without tools in a matter of seconds to adapt to almost all applications.

Roller wheels are available in steel, stainless steel or phenolic version. Ball transfer heads are available in steel or stainless steel.
